

TLCI Goals

The Transportation for Livable Communities Initiative (TLCI) provides federal funding or technical assistance for the planning of transportation projects that meet a majority of the following goals:

Enhance the economic viability of existing communities within the region

Enhance the region's quality of life

Enhance a community's identity

Foster compact land use development/redevelopment

Facilitate accessibility by improving the range of transportation choices by adding or improving pedestrian, transit or bicycle facilities

Reduce air and water pollution through best management practices

Encourage fuel and energy conservation

Promote a healthier community through planning and environmental linkages from an integrated transportation perspective

Preserve and enhance farmland, forests and open space

Assist the redevelopment of urban core communities

Result in projects that can compete at the regional level for capital funds through NOACA's regional transportation investment process

Enhance the historic, archaeological, scenic and environmental elements of the transportation system

Improve the safety and efficiency of the existing transportation system

January 29, 2009

The opportunity to promote alternative forms of transportation and amenities to serve them has never been stronger. The Ohio Canal Corridor Towpath Trail Extension is getting closer to our neighborhood. Now is the time to consider linkages and routes for improving the community connections to the Cuyahoga River Valley, Downtown and adjacent neighborhoods. Please provide us with as much information as possible.....

What are your main destinations within the neighborhood?

When you leave the neighborhood where do you go?

How do you travel? (car, bus, foot, bike etc.?)

What improvements to roads, routes etc. would make the journey better?

Do you leave the neighborhood to recreate or exercise? What parks do you go to?

How often do you use the Towpath Trail now?

Daily Weekly Monthly Yearly Never

Do you think you will use it more often if it is easier / safer to reach? How often?

Daily Weekly Monthly Yearly Never
